Module

Mark an **X** next to the module you completed

Module	Language		
Cloud Databases	Java		
Data Analysis	Kotlin		
Game Framework	R		
GIS Mapping	Erlang		
Mobile App	JavaScript		
Networking	C#		
Web Apps	x	Dart	X
Language – C++	Rust		
SQL Relational Databases	Choose Your Own Adventure		

Fill Out the Checklist

Complete the following checklist to make sure you completed all parts of the module. Mark your response with **Yes** or **No**. If the answer is **No** then additionally describe what was preventing you from completing this step.

Question	Your Response	Comments
Did you implement the entire set of unique requirements as described in the Module Description document in I-Learn?	y	
Did you write at least 100 lines of code in your software and include useful comments?	y	
Did you use the correct README.md template from the Module Description document in I-Learn?	y	
Did you completely populate the README.md template?	y	

Question	Your Response	Comments
Did you create the video, publish it on YouTube, and reference it in the README.md file?	y	
Did you publish the code with the README.md (in the top-level folder) into a public GitHub repository?	y	

Did you complete a Stretch Challenge

If you completed a stretch challenge, describe what you completed.

Record your time

How many hours did you spend on this module and the team project this Sprint?
Include all time including planning, researching, implementation, troubleshooting, documentation, video production, and publishing.

	Hours
Individual Module	5
Team Project	3

Retrospective

- What learning strategies worked well in this module?
It was good to review how classes work first, it help me to understand quickly how flutter works
- What strategies (or lack of strategy) did not work well? aws going down
- How can you improve in the next module?
I am going to start building more screens for the web and also some functions, so it would be better to start earlier than this time
